Professional Summary

Results-driven Python developer with a strong foundation in software development, leveraging expertise in Python, Flask, JavaScript, and SQL to design, develop, and deploy high-quality web applications. Skilled in utilizing tools such as Git, Pandas, and Numpy to drive data analysis and problem-solving. Adept at collaborating in cross-functional teams to deliver projects efficiently, with excellent communication and problem-solving skills. Committed to staying up-to-date with industry trends and best practices in software development.

Professional Experience

Python developer

Ahmedabad,Gujarat
2026

GLS UNiversity

Experience 1: Backend Developer Intern
Duration: May 2024 - August 2024
Developed a full-stack task management platform using Python, Flask, and Django to ensure efficient user authentication and CRUD operations, leveraging frameworks for streamlined functionality.
Designed and implemented responsive dashboards with HTML, CSS, and JavaScript, enhancing user experience and productivity tracking capabilities.
Contributed to database management and data analysis using SQL, Pandas, and Numpy, ensuring accurate and reliable data insights.

Experience 2: Django Developer Intern - TechNova Labs
Duration: August 2024 - May 2026
Developed and deployed RESTful APIs using Python, Django, and Flask, resulting in a 30% reduction in API latency and a 25% increase in user engagement.
Improved database query efficiency using SQL and Python, achieving a 40% decrease in query execution time and a 35% improvement in database performance.
Collaborated with cross-functional teams to deliver web applications, ensuring timely feature releases and exceeding customer satisfaction targets by 20% through effective communication and problem...

Projects

Project 1: Expense Tracker
Technologies: Python, Flask, Bootstrap, SQLAlchemy
Developed an Expense Tracker application using Python, Flask, and SQLAlchemy to streamline daily expense tracking and management.
Designed a robust backend infrastructure with Flask to enable efficient data storage and retrieval.
Implemented a visually appealing and responsive user interface using Bootstrap for seamless navigation and user experience.

Project 2: Task Management Web App
Technologies: Python, Flask, Bootstrap, SQLite
Developed a full-stack task management web application using Python and Flask to enhance user productivity and organization.
Utilized Bootstrap for front-end development and implemented a user-friendly interface.
Designed and implemented a SQLite database to store user tasks and manage data efficiently.

Education

MscIT
GLS UNiversity
7
2026

B.S. Computer Science
State University
3.8 GPA
2025

Expert-Level Skills

Technical: Python, Flask, JavaScript, SQL, HTML, CSS, Git, Pandas, Numpy
Soft: Communication, Problem Solving, Team Collaboration

Achievements

- SIH national level finalist 2024
- Completed Python and Web Development certification
