Mayank Parmar

PYTHON DEVELOPER

Summary

Results-driven Python developer with a strong foundation in web development and data analysis, proficient in Python, Flask, JavaScript, and SQL, with expertise in tools such as Pandas and Numpy. Skilled in Agile software development, with excellent communication and problem-solving skills, and experience working collaboratively in a team environment. Proficient in HTML, CSS, and Git, with a passion for delivering high-quality solutions. Committed to utilizing technical expertise to drive business success.

Education

MscIT - GLS UNiversity (79%) 2026
B.S. Computer Science - State University (3.8 CGPA) 2025

Skills

Technical: Python, Flask, JavaScript, SQL, HTML, CSS, Git, Pandas, Numpy

Soft: Communication, Problem Solving, Team Collaboration

Achievements

- SIH national level finalist 2024
- Completed Python and Web Development certification

Experience

Experience 1: Backend Developer Intern
Duration: May 2024 - August 2024
Developed and deployed a full-stack task management platform using Python, Flask, and Django, resulting in 25% increase in user engagement.
Designed and implemented responsive dashboards with HTML, CSS, and JavaScript, enhancing user experience by 30%.

Experience 2: Django Developer Intern - TechNova Labs
Duration: August 2024 - May 2026
Developed and deployed RESTful APIs using Python, Django, and Flask, resulting in a 30% reduction in API latency and a 25% increase in user engagement.
Improved database query efficiency using SQL and Python, achieving a 40% decrease in query execution time and a 35% improvement in database performance.

Projects

Project 1: Expense Tracker
Technologies: Python, Flask, SQLAlchemy
Developed an Expense Tracker application using Python, Flask, and SQLAlchemy to streamline daily expense tracking and management.
Designed a robust backend infrastructure with Flask to enable efficient data storage and retrieval.

Project 2: Task Management Web App
Technologies: Python, Flask, Bootstrap, SQLite
Designed a full-stack task management web application using Python and Flask to enhance user productivity and organization.
Utilized Bootstrap for front-end development and implemented a user-friendly interface, and implemented a SQLite database to store user tasks and manage data efficiently.
