SKILLS

Technical Skills

Python, Flask, JavaScript, SQL, HTML, CSS, Git, Pandas, Numpy

Soft Skills

Communication, Problem Solving, Team Collaboration

EDUCATION

MscIT - GLS UNiversity (79%) 2026

B.S. Computer Science - State University (3.8 CGPA) 2025

ACHIEVEMENTS

- SIH national level finalist 2024
- Completed Python and Web Development certification

SUMMARY

- Results-driven Python developer with a strong foundation in web development and data analysis. Proficient in leveraging Python libraries such as Flask, Pandas, and Numpy to design and implement efficient solutions. Skilled in communicating complex technical ideas and collaborating with cross-functional teams to drive project success. Committed to staying up-to-date with industry trends and technologies, with a focus on delivering high-quality software applications.

EXPERIENCE

Backend Developer Intern May 2024 - August 2024

Python developer

- Developed and deployed a full-stack task management platform using Python, Flask, and Django, resulting in 25% increase in user engagement.
- Designed and implemented responsive dashboards with HTML, CSS, and JavaScript, enhancing user experience by 30%.

TechNova Labs August 2024 - May 2026

Django Developer Intern

- Developed and deployed RESTful APIs using Python, Django, and Flask, resulting in a 30% reduction in API latency and a 25% increase in user engagement.
- Improved database query efficiency using SQL and Python, achieving a 40% decrease in query execution time and a 35% improvement in database performance.

PROJECTS

Expense Tracker 2026

Python, Flask, SQLAlchemy

- Developed an Expense Tracker application using Python, Flask, and SQLAlchemy to streamline daily expense tracking and management.
- Designed a robust backend infrastructure with Flask to enable efficient data storage and retrieval.

Task Management Web App 2026

Python, Flask, Bootstrap, SQLite

- Designed a full-stack task management web application using Python and Flask to enhance user productivity and organization.
- Utilized Bootstrap for front-end development and implemented a user-friendly interface, and implemented a SQLite database to store user tasks and manage data efficiently.
